The Southern Regional Health Authority (SRHA), a Statutory Body under the Ministry of Health responsible for the management and operation of Public Health Services within the Parishes of Clarendon, Manchester and St. Elizabeth, invites applications from suitably qualified persons for the following position in the **MANCHESTER HEALTH DEPARTMENT**:

INSECT INSPECTOR (HSC/HS 3) – (1 position) Vacant

(salary range \$1,332,574 – 1,584,011 per annum and any allowance (s) attached to the post)

Reporting to the Parish Programme Specialist (Vector Control), the incumbent is responsible for the supervision of vector control source reduction activities, investigation of complaints and adulticidal activities.

Qualifications and Experience:

- Completion of Secondary Education
- Two CSEC subjects; inclusive of English Language would be an asset
- At least one (1) year working experience in vector control

Specific Knowledge Required

- Vector control inspection
- Operation of the Fogging and Mist Blower machines
- Mixing of chemicals for vector control
- Infection Control
- Standard Operating Procedures
- Investigation Processes • Conducting Surveys
- Treatment of Wasp Infestation and Rodent Control

Main Duties

- Supervises Mosquito source reduction activities, through the inspection of premises (houses, businesses, institutions, open lots, etc.), oiling of drains and stagnant water.
- Assists with the erection, monitoring and collection of ovi-position traps.
- Performs treatment of wasp infestation at Health Centres and other sites.
- Assists in the investigation of reported complaints relating to mosquito nuisances and other vermin.
- Assist in rodent control activities, including the baiting of premises.
- Assists in dipping exercise for the detection of culex/anopholles ssp. breeding.
- Assists with the preparation of material for adulticidal activities. • Supervises adulticidal exercise for adult mosquito breeding.
- Carries out any other duties related to the control of vector borne diseases that will arise from time to time. Job Description - Insect Inspector
- Provides the general public with information on the prevention and treatment of mosquito breeding sites, through face-to-face discussions and distribution of printed materials.
- Conducts surveys in specified areas as requested.
- Reports to the Parish Programme Specialist (Vector Control) any problems seen that will give rise to the breeding of insects. • Performs any other duties as directed by supervision
